Fee for Services

**EVALUATIONS:** Evaluations include hands-on use of hardware, software and/or assistive devices. Skill level is determined and appropriate goals may be recommended. Recommendations for appropriate assistive technology device(s), and/or services, as well as vendor information are included in a written report. Service providers (i.e. Traumatic Brain Injury Fund, Division of Vocational Rehabilitation Services, etc.) will receive a copy of the client's assistive technology evaluation.

Assistive technology evaluations are performed in the areas of:

- Computer technology access (adaptive hardware and software)
- Aids for daily living
- Home accessibility and barrier-free solutions
- Environmental control
- Organization and memory aids

Requests for evaluations in alternate format are available upon request (i.e. large print, electronic format, tape recording).

Evaluations are priced at a flat fee. Evaluations range from one to four hours, depending on the individual and specific evaluation requested. The flat fee applies to evaluations performed in the home, school, or place of employment (as appropriate). Please note that the evaluation fee DOES NOT include training or setup fees.

**Please contact Jamie Arasz Prioli at [info@japriolisolutions.com](mailto:info@japriolisolutions.com) to discuss fee structure and billing options.**

**In Home Follow-Up Support may also be provided.** (Optional) A RESNA certified assistive technology professional will provide time in the home to work with the individual in using the hardware and software, matching software programs with individuals' academic, vocational, recreational, etc. goals and help to integrate the new tools into a daily schedule. This may be considered a training period and/or an opportunity to demonstrate device setup.

**COST FOR FOLLOW-UP SUPPORT (i.e. device and/or software training, device setup, on-site technical support):** \$150 per hour, two hour minimum per session. As each client demonstrates special needs and requirements, additional hours may be required per session and this will be determined at time of initial evaluation.
